## ZKACCESS INTRODUCES NEW, ALL-IN-ONE SECURITY PLATFORM SOFTWARE

*Fairfield, NJ . . . April, 2017*

[ZKAccess](#) is proud to announce its new "All-in-One" Web-based security platform software - ZKBioSecurity3.0. The software, which supports the ZKAccess Pro Series of panels and readers, contains four integrated modules: Access Control, Video Integration, Elevator Control and Visitor Management. Equipped with an optimized system architecture designed for high level biometric identification and a modern user-friendly UI, ZKBioSecurity3.0 provides an advanced solution for a whole new user experience.

It supports up to 8,000 doors (Multi-Server) and 2,000 doors (Single Server) and advanced access control functions include zone control and global anti-passback and linkage. It allows for video software integration with C2P (Milestone, OnSSI, Mirasys) and Artec, as well as video camera integration with Hikvision and Dahua. Other capabilities include automatic data backup, alarms/events email notifications, and system log monitoring.

"We're pleased to introduce this new advanced security software platform to market," says [ZKAccess](#) CEO Larry Reed. "We've really taken access control to the next level."

**About ZKAccess:** ZKAccess is a leading provider of fingerprint, face, finger-vein and RFID solutions. Product offerings also include Near & Far-range Facial Recognition Cameras, Elevator/floor access controllers, License Plate Recognition (LPR) Gate Controllers, Turnstiles and Consumer products including fingerprint-based battery-operated Biometric Door Locks.
